LAVA FLOW EXTENDS.

Flood from Etna Invades Lisi Plain Moving Toward Mt. Novilla.

Catania, April 2.—A river of lava from the active craters of Mount Etna yesterday invaded Lisi Plain, flowing in the direction of Cisterna and Regina. Borrelli does not appear to be in danger. Another stream is advancing slowly toward Mount Nocilla.

Murdered for a Pail of Milk.

Stiegfried was turning over the pages of his new reader. The picture of a cow greatly excited him. "Teacher, teacher," he called. "I once seen a cow!" "Did you? Where?" "In the street. A man had her and he was going to kill her for her milk." Everybody's Magazine.

Each of the chief organs of the body is a link in the chain of life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper cover, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

PROBERS SPLIT ON BALLINGER

Chairman Nelson Won't Take Back Charge

AGAINST GLAVIS' LAWYER

A Partisan Division—Brandeis, Accused of Deceiving the Committee, Is Wrathful.

Washington, April 2.—The Ballinger-Pinchot hearing went on yesterday with Secretary Ballinger's counsel in charge of the presentation of evidence. The taking of testimony in behalf of the cabinet officer began last Saturday afternoon, after Attorney Vertrees had made his opening statement, in which he declared that much of the testimony against Mr. Ballinger would be shown to be false, and sharply criticized James R. Garfield and Gifford Pinchot for their share in the attack upon the secretary of the interior.

The Democratic members have gone so far as to notify their Republican colleagues that they will participate in the executive sessions of the committee only upon the understanding that they shall be free to announce their votes and their contentions during the public sittings. The executive sessions have not been very harmonious, especially the one of Saturday last, when the question of compelling Secretary Ballinger to testify as the first witness for the "defense" was under consideration. Following this session, the Democrats announced that with the exception of Senator Parnell of South Dakota, they had voted in favor of compelling the secretary of the interior to appear at once. Representative Madison of Alaska, insurgent, voted with the Democrats.

Elmer E. Todd, United States district attorney at Seattle, Wash., was the first witness called yesterday. Mr. Todd contradicted certain statements made by Special Agent H. T. Jones, when he was testifying for Louis B. Glavis. The witness declared that witness Jones' statement that he had investigated the Alaska cases "because Judge Sanford was constitutionally opposed to land fraud trials generally," was absolutely false.

Mr. Vertrees asked Mr. Todd if he had been consulted some time ago regarding a possible prosecution of Glavis for letters mislaid from his office when he turned it over to his successor, Christensen. It is claimed these letters afterward were found in a box belonging to Glavis.

Mr. Todd said Mr. Christensen came into his office and complained that the letters were missing.

About this same time copies of these missing letters began to appear in a weekly paper. During his cross-examination of the witness, Attorney Brandeis showed him some of Jones' daily reports, one of which said he had had a conference with District Attorney Todd in regard to criminal prosecution in the Christopher group.

"Didn't Jones have a conference with you at the time?" "No; he may have dropped into the office to leave a letter," said I had to look over the papers before giving an opinion."

Mr. Todd insisted that he had never had a conference with either Glavis or Jones when he heard that Glavis was ordered by the land office to let go of the Alaska matter on May 2, 1908, and to devote himself to the Oregon land cases.

Mr. Todd answered questions bluntly and in a manner which seemed to irritate the attorney. Mr. Todd testified as to the Wilson case, in which he appeared as prosecutor, that there never was an escrow agreement drawn up in this case, so far as the record showed.

Mr. Todd said the escrow agreement in the Wilson case was a verbal one. Mr. Ballinger did draw up deeds for two of the claimants. So far as he knew, that was his only connection with the case. Mr. Brandeis brought the two deeds in evidence. They bore date of August, 1902.

Remarks made by the chairman of the investigating committee, Senator Nelson, were objected to by members of the committee and a quarrel ensued, lasting about an hour. Motions were made to have the chairman withdraw his remarks, which Senator Nelson refused to do, and finally a motion was adopted, laying the matter on the table.

Democratic members of the House lands committee attacked the so-called administration conservation bills relating to withdrawals at a hearing yesterday, charging that they were merely to validate existing withdrawals and designed to "give the administration of the interior department a clean bill of health."

ST. LOUIS "SPORT."

Negro Boy Hunted by Dogs for "Society's" Amusement.

St. Louis, April 2.—The climax of a real man hunt was seen at the Coliseum Thursday night, when John Watt, a negro boy, was trailed and cornered after half an hour's chase through the streets, for the amusement of St. Louis society.

The chase marked the close of the Mississippi Valley Kennel club's dog show. Watt, panting for breath and exhausted, crouched in a corner of the bandstand, where he had climbed for safety, while the dogs, leaping at the stand, bayed the note of discovery.

T. R. AND VICTOR.

King Will Receive Col. Roosevelt on Monday Morning.

Rome, April 2.—Col. Roosevelt's audience with King Victor Emmanuel has been definitely fixed for 10 o'clock next Monday morning. The colonel will take dinner with his majesty at the Quirinal at 8 o'clock in the evening. Outside of the Italian officers, Col. Roosevelt and the staff of the American embassy will be the only guests at this function.

TERRIBLE SKIN HURD 25 YEARS

Business Man Suffered Agony—Head, Neck and Shoulders Covered—Became An Object of Dread—Consulted Most Able Doctors and Hospital but Got No Relief.

SURPRISINGLY QUICK CURE BY CUTICURA

"Cuticure did wonders for me. For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck and shoulders, no that to my friends, and even to my wife, I became an object of dread. At large expense I consulted the most able doctors far and near. Their treatment was of no avail, nor was that of the hospital. During six months' efforts, I suffered on and on, and there was no help for me this side of the grave. Then I heard of some one who had been cured by Cuticure Remedies and thought that a trial could do no harm. In a surprisingly short time I was completely cured. S. V. F. R. 145 C. C. St., Boston, Mass., Oct. 12, 1909."

CURED BOILS

With Cuticure when Everything Else had Failed.

"I am very grateful for Cuticure as my daughter had been suffering for eleven months with awful great boils on her body. We tried everything which one could mention but nothing was any good. The boils made her very weak and ill and she had to leave her place. After using one tablet of Cuticure Boils, one box of Cuticure Ointment, two vials of Cuticure Pills and three bottles of Cuticure Lotion she got quite well and has not had the boils since. I should have written to you before but have been waiting to see if she had any more of any coming back. My daughter is eighteen years old. Mrs. Ellen Beal, Hillside Rd., Ash Common, nr. Alder shot, Hants, England, June 29, 1909."

ACTED AS DETECTIVE.

Such Defence of Mississippi Senator Who Says He Was Bribed.

Jackson, Miss., April 2.—Exonerating himself from moral and legal responsibility therefore, on the ground that he was acting as detective for the Vardaman and to prove that bribery was being used in the recent senatorial contest, State Senator Theodore Bilbo appeared before an executive session of the Senate Thursday night and told how he had accepted a \$245 bribe from Hon. L. C. Dulane, a wealthy planter of Iuka county, to change his vote from former Governor Vardaman to United States Senator Leroy Percy.

Bilbo was placed on the stand after the adoption of a resolution changing the plan of procedure originally adopted. The attorneys employed by Bilbo, Dulane and others were excluded from the Senate chamber and a resolution was adopted providing that the Senate elect two of its members to act as attorneys and that Bilbo be permitted to select two colleagues to act in the same capacity for him.

Bilbo, it is said, told the Senate that it was first suggested to him in January, that he might sell his vote for a good sum; that he arranged a meeting with Dulane through another person, but this arrangement failed and he finally opened negotiations direct.

NEW PUBLICITY BILL.

Bailey Introduces One in Senate Yesterday.

Washington, April 2.—The bill providing for publicity of contributions to political committees and campaigns was introduced in the Senate yesterday by Senator Bailey of Texas, and it was referred by the vice-president to the committee on privileges and elections.

Senator Bailey announced that the bill is in the same form as reported to the House.

CORPORATIONS WILL AGREE

No War Between New Haven and Grand Trunk

WILL ENTER PROVIDENCE

Only Two Points at Issue in Case of Southern New England Charter. Will Be Referred to the Supreme Court.

Providence, R. I., April 2.—Although the date of the report of the Grand Trunk charter bill from the committee on corporations is still uncertain, it may be authoritatively stated that an agreement has almost been reached, so far as the New Haven and Southern New England roads are concerned, for upon only two points out of the original ten is there now any difference.

The points now at issue, it is stated, are the Grand Trunk's demands to cross the New Haven tracks at grade, and to be allowed to use the New Haven's tracks in entering this city. The New Haven road has receded from its demands that disputes over trackage be referred to the interstate commerce commission and accepted the Grand Trunk proposition to refer such disputes to the Rhode Island supreme court. The other eight points over which controversy threatened have been cleared up by mutual consent.

CANADA CAREFUL ON IMMIGRATION

Chiefly Desires Those Whose Purpose It Is to Settle in Agricultural Districts.

Washington, April 2.—Canada wants immigrants whose purpose is to enter agricultural pursuits, either as owners, tenants or laborers, and desires to exclude those immigrants whose presence would tend to the congestion of towns and cities. This is probably the most important statement made in a report submitted to Congress yesterday by Senator Dillingham, chairman of the joint immigration commission, in regard to the immigration situation in Canada. Another striking feature of the report is the comparison of immigration into Canada during the past decade with that into the United States. This shows that while 70 per cent. of Canada's immigration during that period came from northern and western Europe and only 30 per cent. from southern and eastern Europe, the reverse was true in regard to the immigrants entering the United States.

Of the total number of immigrants going from the United States to Canada during the past three years, more than seven-eighths were classed as farmers or farm laborers. Probably no other considerable movement of population from one country to another, says the report, at the present time is so largely composed of agricultural people.

From 1900 to 1909 in western Canada 235,890 homesteads were entered for more than 66 per cent. of the entries being made from southern and eastern Europe.

In dealing with oriental immigration, Canada has excluded a policy which practically excludes Asiatic labor.

CIVIL SERVICE EXTENDED.

Blanket Order Issued by President Taft.

Washington, April 2.—President Taft issued an order yesterday, putting assistant postmasters at first and second-class offices in the classified service. Something like 21,000 offices are affected by the order. For several years there has been a demand that assistant postmasters in the larger post offices be transferred to the classified service, the argument in favor of the step being that assistant postmasters have confidential relations with the postmasters and, as a rule, stay on from one administration to another. This is the first blanket civil service order issued by President Taft. One of the last acts of President Roosevelt was to transfer fourth-class postmasters in the territory lying east of the Mississippi river to the classified service. A year's experience with the new arrangement with reference to fourth-class postmasters has convinced the larger post office commission that the transfer was a wise one. It is understood that the administration will shortly put those fourth-class postmasters, who are not affected by the Roosevelt order, under civil service.

A TIT EUTANT.

Mr. Carnegie Refused to Talk with Pittsburgh Reporters.

Pittsburgh, April 2.—Andrew Carnegie and party arrived here from Chicago yesterday and were taken in automobiles to the Hotel Schenley, where they will remain during their four days' stay in Pittsburgh.

As Mr. Carnegie stepped from his private car in the Union station, he was beset by reporters and photographers. Asked for a statement on a reported interview in Chicago Thursday in which he assailed Speaker Cannon of the House of Representatives, Mr. Carnegie said:

"I have been stormed by reporters ever since I left for the West coast and I think you Pittsburghers might let me rest here and not ask me to talk all the time."

Mr. Carnegie shunned the photographers, asking to be excused from posing before the camera battery.

PEARY THROUGH EXPLORING.

He Declares That His Career in That Direction Has Been Concluded.

Chicago, April 2.—Commander Robert E. Peary, who arrived in Chicago yesterday, in an interview said: "I am absolutely at the end of my career as an explorer. Reports that I am to lead an expedition into the antarctic regions are not true, and I certainly do not contemplate another trip to the north pole."

CATARRH DESTROYED MY APPETITE.

PERUNA rarely fails to restore the appetite. Immediately upon beginning the use of Peruna patients begin to eat and digest. This is the universal testimony, coming from all parts of the civilized world. Catarrh is a very frequent cause of loss of appetite and disturbed digestion. The beneficial influence of Peruna on catarrh completely restores the appetite in such cases. To prod the digestive organs with medicines that are merely stimulants is a poor way to remedy such cases.

"I am now cured and cheerful in spirit, all through the agency of Peruna, which has cured me effectively and restored my appetite. My only regret is that I did not use Peruna sooner and I would have avoided all my previous suffering and misery." —Mr. Joseph H. Conlan.

Removed Catarrh, Restored Appetite.

Mr. Joseph H. Conlan, 457 7th Ave., Brooklyn, N. Y., writes: "I suffered from catarrh which completely destroyed my appetite and weakened my entire system. I am now cured and cheerful in spirit, all through the agency of Peruna, which has cured me effectively and restored my appetite. My only regret is that I did not use Peruna sooner and I would have avoided all my previous suffering and misery."

Torpid Liver, Stomach Trouble. Mr. James O'Brien, 626 Madison St., Topeka, Kas., conductor Santa Fe Railway and member Order of Railway Conductors, writes:

"I suffered with a torpid liver and stomach trouble, which made my complexion very sallow, and I felt miserable and tired all the time. An aunt wrote me that she was taking Peruna with such good results that she advised me to try it, and I finally bought a bottle, although I disliked to take patent medicines. However, I found Peruna very agreeable to take, and effective, as I felt better in a week. I took only five bottles in all and I found that was all I needed. I am most grateful to you for what your medicine has done for me."

Dysentery Entirely Relieved. Mr. W. N. Casey, Leamington, Ill., writes:

"In two weeks after beginning your treatment I was well. I used nine bottles of Peruna."

Catarrh of Stomach. Mr. Henry Neely, First Lieutenant, Co. "F," 89th Regiment, O. V. I., Box 68, Trenton, Mo., writes: "I suffered for years with catarrh of the stomach. Seeing an advertisement of Peruna, I bought a bottle and every dose made me feel better. Seven bottles completely cured me."

Peruna as a Tonic. Capt. R. B. Smith, Greensboro, Ga., writes:

"After using several bottles of Peruna I can recommend it as one of the best catarrh medicines on the market. As a tonic it has no equal. Peruna is all that is claimed for it."

Authentic Advice Said to Be in Possession of News Agency. London, April 2.—Skepticism is still expressed here regarding the recent announcement at Addis Ababa that King Menelik had died. A dispatch from Rome yesterday said that the Stefani agency is in receipt of advice, purporting to be authentic from the Abyssinian capital, which not only flatly contradicts the announcement, but insists in the face of assumption to the contrary that there has been no change of late in the monarch's condition.

Berlin, April 2.—A special to the Tagblatt from Addis Ababa would seem to indicate that King Menelik was still alive Thursday, when the dispatch says, the state council refused the demand of the emperor that the people should swear to give protection to her life and property in the event of the monarch's death.
